

## Class V ABC – Computers (30/04/2020)

### A. Tick (✓) the correct option

1. Who invented Pascaline? -  
**c. Blaise Pascal**
2. Who is known as the father of Computers? –  
**b. Charles Babbage**
3. Which generation computers used transistors?  
**b. Second Generation**
4. What technology was used in third generation computers?  
**c. ICs (Integrated Circuits)**
5. Which programming language was used in second generation computers?  
**b. Assembly Language**

### B. Fill in the blanks

1. The concept of binary language was introduced by Lady Ada Lovelace
2. In the first generation computers, Vacuum tubes were used.
3. The first instrument for calculation was the Abacus.
4. The history of computers starts about 2000 years ago.
5. Parts of ABACUS are known as Heaven and Earth.

### C. Tick (✓) the correct statements and cross (X) out the incorrect ones.

1. Pascaline was the first calculating machine. ✓
2. Fourth generation computers were based on LSI (Large Scale Integration) ✓
3. The programming language ADA is named after, Lady Ada Lovelace. ✓
4. Vacuum tubes were introduced in second generation computers. X
5. Fifth generation computers are based on artificial intelligence. ✓

**NOTE : Now try D, F and G.**

**All the best. Stay Safe and Be Good**
